Place | Texas

Meet Ms. Janie

Hi! I'm Ms. Janie

Hi! Welcome to our center! I'm excited to work with your children and family, as we work together to help your little ones grow.

I have worked in childcare since 1993. I have a Bachelor of Applied Arts and Science in Interdisciplinary Studies from the University of Texas at Brownsville. I moved to Colorado in 2016 because I'd always heard it was such a beautiful place. I have enjoyed my time here, and I have loved working with children and families in this area.

I believe in helping my students develop a positive attitude toward education and learning. I am looking forward to establishing friendships while at The Summit Academy.

Sincerely,
Ms. Janie
