

Dear Family,

We are very excited to welcome you and your child to our Infant Program! Our goal is to provide an all-around learning experience specifically designed for every developmental stage of education. The Infant Program at The Academy embraces a number of educational philosophies from Montessori to STEM. We offer theme-based units, learning activities, enrichment lessons and fun, engaging lesson plans that include core academic subjects from math, reading, writing, foreign languages, to other academic components such as arts and crafts, music, dramatic play, and physical activities.

Our infant community is a warm and nurturing place where caregivers provide encouragement and individualized care for each child. Our Program exposes each child to Infant Sign Language throughout the day and introduces learning activities to promote each child's verbal, visual, and auditory growth. Daily reports include everything you want to know: eating, sleeping, diapering, developmental milestones, and any special moments.

The unit lesson plans will be posted monthly on the Parent Board located in the classroom. Additional Parent Resources are included in our monthly newsletters and [Instagram](#) / [FaceBook](#).
